Honeymoon Registry

Information, Tickets, & Travel offers a new choice in bridal registry. Our Honeymoon Registry Service is similar to the traditional bridal registry that many department stores offer. Instead of china and linens, your wedding gift givers may choose to pay for part of your dream honeymoon!

Our Honeymoon Registry Service is simple. The bride and groom meet with one of our travel specialists who can provide information on destinations, costs, seasonal concerns, etc. After the bride and groom have decided on their dream honeymoon and put down the required deposit, they leave the rest to us!

We provide Honeymoon Registry cards to include with your invitations. Recipients who choose to participate simply fill out the card and mail it to our office with their payment by the deadline date. All monies collected will be credited to your honeymoon package.

At the time final payment is due, the bride and groom are responsible for any balance pending. In the event that contributions have exceeded the package price, the extra money may be used for hotel or shipboard credits, upgrades to superior rooms or suites, or other special gifts.

Let the wedding bells ring aboard a cruise ship

A cruise ship is a beautiful setting for a wedding ceremony and reception. Cruise lines offer wedding planners who will help you make a memorable wedding.

Arrangements can be made for photography, videography, decorations, wedding cakes, and catering for the reception.

On most cruise ships, your family and friends will be allowed onboard for the wedding ceremony and reception before setting sail, or you can invite them to purchase a cruise package and sail along with you. The choice is yours!
